## BLOWER FAN (Model F-45A)

The F-45A fan is designed for floor drying, water damage restoration, and ventilation. This high velocity 2500 CFM fan operates at 4.5 amps and has a built-in GFCI outlet for daisy chaining multiple units. Constructed using a tough rotomolded housing, the F-45A is built to resist impacts, constant handling and transportation to and from jobsites.

### FEATURES:

- Maximum 2500 CFM for fast, efficient drying.
- Powerful, yet efficient motor operating at 4.5 amps.
- Built-in GFCI circuit allows you to “daisy chain” multiple units together to service large areas where power outlets are limited or not available.
- Three-position switch for selecting the appropriate operating speed and air flow for the job.
- Large molded-in cord wrap for quick, easy storage of power cord.
- Off-set carrying handle distributes motor weight evenly for comfortable grip and transport.
- Protected with a one-year warranty on the motor, five-years on the polyethylene housing.
- ETL approved.

### TECHNICAL SPECIFICATIONS:

Item Number:	150-1601-10
Power:	115V, 60Hz
Motor:	1/2 Horsepower
Amps:	4.5 amps maximum
Fan Speed:	960/1060/1170 RPM
CFM:	2500 maximum
Power cord:	25 feet
Weight:	28 lbs.
Dimensions:	17" x 19" x 19"
