

HEPA PRO AS800

Air Scrubber

HEPAPro AS800 Air Scrubber provides up to 800 CFM in a very compact, portable design. This lightweight 35 lb. unit is easy to carry to jobs and stackable in vehicles and storage. It's variable speed airflow can operate both vertically and horizontally and there are multiple ducting options. A true HEPA filter provides a minimum efficiency of 99.97% at .3 microns and an optional carbon/potassium permanganate filter is also available.

FEATURES:

- Maximum 800CFM - single unit provides four air exchanges in one hour (based on 30' X 30' X 8' room)
- Variable speed switch - delivers the appropriate amount of airflow for the job.
- Low amp draw - safely daisy chain up to five units on a 15 amp circuit.
- Built-in GFCI Outlet, 12 amp breaker - convenient outlet for operating additional appliances.
- Filter condition indicator lamp - alerts the operator when filter system should be checked.
- Molded-in handle and stackable design - easy to carry, transport and store.
- Roto-molded polyethylene cabinet - durable construction withstands high impacts, ensures zero bypass, maximum filtration.
- 16" inlet & 10" lay flat outlet - multiple ducting options to meet either negative air or air scrubber protocol.

TECHNICAL SPECIFICATIONS:

Item#:	125-1344-10
Power:	110-120 V
Amps:	1.9 amps
Airflow:	800 CFM
Filters:	1st stage, 1" Pleated Media, 18" x 18" 2nd stage, 2.5" Pleated HEPA 18" x 18"
Filter(optional):	1" Carbon and Potassium Permanganate
Dimensions:	23"W x 23"H x 19"D
Weight:	35 lbs.
Warranty:	One year
