

HEPA PRO 10EB

Introducing a genuine HEPA vacuum that can be worn comfortably as a backpack. The HEPAPro 10EB offers 10-quart recovery capacity and the ultimate in HEPA filtration and clean-air technology. Don't be misguided by competitive backpack vacuums claiming to have HEPA filtration. This backpack is a genuine "HEPA Vacuum" so it has a HEPA filter that is individually tested and certified at a minimum efficiency of 99.97% at .3 microns. It is the only backpack vacuum equipped with three (3) HEPA Filters. The main HEPA filter, secondary cloth pre-filter and disposable paper filter bag are all drop-in, modular components on the intake side of the motor. This is your "fail-safe" guarantee to prevent any accidental bypass of dangerous dust that may escape from the vacuum and contaminate the air. Two smaller HEPA filters are mounted at the motor's output to ensure absolute clean-air exhaust. The model HEPAPro 10EB is approved for EPA RRP regulations for removal of lead based paint particles. It also meets OSHA requirements for reducing permissible levels of crystalline silica on construction and restoration jobsites. It is also ideal for advanced cleaning in schools, hospitals and other public areas.

FEATURES:

- Two-stage, 1.7HP, Ametek motor with thermal protection provides powerful suction and guards against overheating.
- Four-stage filtration including individually tested and certified HEPA filter prevents premature clogging and ensures clean air exhaust.
- Padded harness with handle allows for free arm movement, enhancing cleaning performance while minimizing stress to the operator's body.
- Lightweight, polyethylene body resists impacts and withstands years of professional use.

TECHNICAL SPECIFICATIONS:

Item Number	125-1254-20
Vacuum Motor	1200W/10Amp
CFM	104
Waterlift	100"
Machine Weight	15 lbs.
Shipping Weight	23 lbs.
Warranty	1-year
Disposable filter bag	122-3228-14

TOOL KIT:

122-3012-14	Crushproof Hose 5' x 1.5" Dia
122-3025-14-1	Alum Wand 5' Double Bend 2-Piece 1.5" Dia
122-3030-14	Round Dusting Brush 1.5" Dia
122-3044-14	Multi-Surface Floor Tool 14" x 1.5"
122-3060-14	Crevice Tool 17" x 1.5" Dia
122-3070-14	Upholstery Tool 1.5" Dia

HEPA PRO 10EB

On-Off Switch: Hip mounted for easy access.

TESTED & CERTIFIED HEPA FILTER:

The HEPAPro 10EB is equipped with a "Fail-Safe" HEPA filter system that protects against discharge or bypass of dangerous dust particles from the vacuum cleaner. This modular, drop-in and removable HEPA filter, cloth pre-filter and disposable paper bag, all seal together tightly under suction. There is zero risk of the operator incorrectly installing the HEPA filter and accidentally causing bypass, thus contaminating the air with dangerous particles. Also, in the event of a failure, by rupture or the like, of the cloth filter bag or disposable paper bag, the HEPA filter is the final filter and certified to trap any particles before they can be released into the air.

The HEPA filter is individually tested and certified to be 99.97% efficient at .3 microns according to IEST-RP-CC001 test requirement.

Disposable Paper Bag:
Part # 122-3228-14

Cloth Bag:
Part # 122-3230-14

HEPA Filter:
Part # 127-3321-14
