## BACKPACK VACUUM / BLOWER (Model Porter Pro)

Introducing the new Porter Pro, the most advanced backpack vacuum designed offered in the market today. This vacuum allows for superior airflow while providing excellent mobility and freedom of movement. Weighing only 10 lbs and equipped with the most comfortable backrest in the industry, the Porter Pro significantly increases productivity in multi-task cleaning operations in hotels, schools, airports, office buildings and hospitals.

### FEATURES:

- Includes complete tool kit to meet any job: 1.25" steel telescoping wand, hose, carpet tool, crevice, dusting and upholstery nozzles.
- Padded shoulder and waist straps stabilize the vacuum on the operator's back and hips and permits long, uninterrupted cleaning.
- Snap-on top is reversible to allow hose to be moved to either side for right or left handed operation.
- Four-stage filtration system with sealed-air HEPA media provides superior clean air exhaust.
- Blower adaptor fits into front of unit, converts vacuum into a convenient blower.

### TECHNICAL SPECIFICATIONS:
